

# **Ayers Software Token User Guideline**

## A. Token Registration

#### 1) Download Ayers Token App (In App Store or Play Store)

The Ayers Token App is available in both iPhone or Android version, clients can simply download Ayers Token App by searching the name "Ayers Token" or "Ayers 保安編碼" in Google play or App Store.

#### 2) Install Software Token Application

1. After installing the "**Ayers Token App**", you will see the following interface when you use the app for the first time, requesting the user to enter a 6-8 digit password.

2. Please input the same 6-8 digit password which you have just created from the first screen again to confirm

3. After successfully confirmed the password, please read the "**Disclaimer**" and then press **Agree**.

4. Please press **"Token Registration"**, and input broker identification code (BIC) and then press **OK**, our broker identification code (BIC) is **"CORNERSTONE"**.

#### <u>Remarks</u>

- If the client has several trading accounts under the same broker firm, the client is also required to repeat the same registration procedure until all trading accounts have been registered respectively.
- 2) If the client changes to a different mobile phone, the client needs to repeat the registration process on the different mobile phone.
- 3) When the Ayers Software Token has been successfully installed on the new mobile phone, the Ayers Software Token App in the previous phone will be automatically disabled.
- 4) Since valid email address is required for Ayers Software Token registration, clients are advised to provide their updated email address if there is any change to the information provided during account opening. 2FA setup may fail or the Ayers Token cannot be used if the contact information is missing or outdated.
